SLCL Form
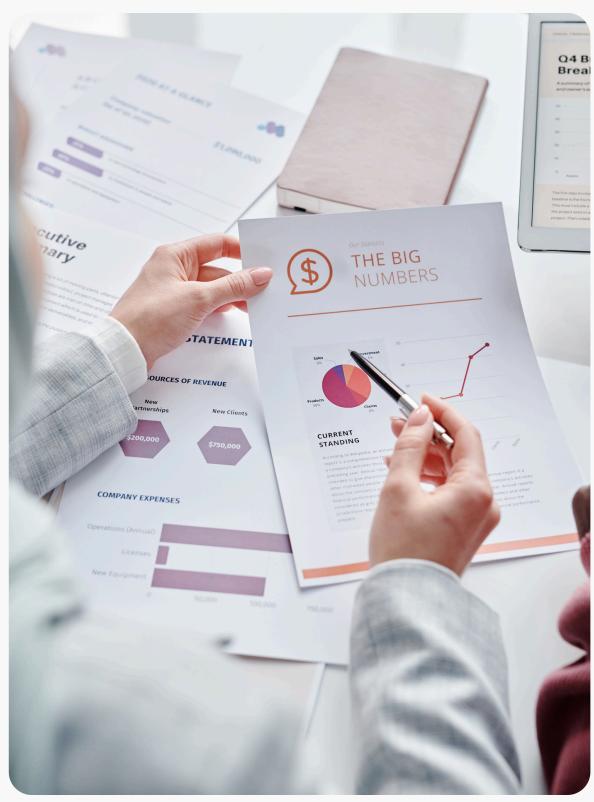

Week 9 Tasks

Updated Security Sets

- I deleted Medieval Studies from both the Security Set and Form Contents sections

- I updated the SLCL's department contacts for both the EO and OM with the ones provided

- For SLATE, I used the EO contact for the OM contact as well

Removing NetIDs

Removing NetIDs

- I removed the NetIDs from both the Form Contents and Clean-Views

- This was possible as the Security sets allow both emails and Display Names
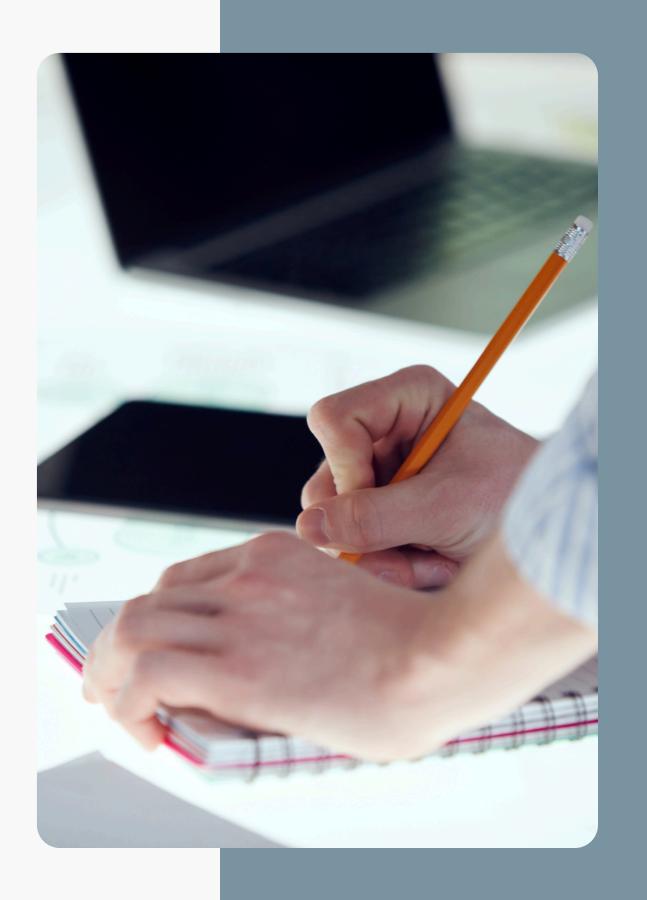

Form Lifecycle

Routing Triggers

- After removing the NetID questions, there were places within the routing trigger emails where the emails were junk. I corrected those emails to the correct EO/OM contact email

Permissions

- Similar to the Routing Triggers, I had to correct the form permissions section to the correct EO/OM contact information.

Thank you
